Web Announcement 2261

## **Use Form FA-11F to Request Applied Behavior Analysis (ABA) Services for Recipients with a Fetal Alcohol Syndrome (FAS) Diagnosis**

Effective January 1, 2020, the screening and treatment of Fetal Alcohol Syndrome (FAS) disorders is performed through the Applied Behavior Analysis (ABA) program for persons under the age of 19 years or, if enrolled in high school, until the person reaches the age of 22 years.

[Form FA-11F \(Autism Spectrum Disorder \(ASD\) Diagnosis Certification for Requesting Initial Applied Behavior Analysis \(ABA\) Services\)](#) has been updated to include FAS diagnostic services. Please use the currently posted version of form FA-11F, which now includes the FAS disorders diagnostic category and the method to determine the diagnostic category.
